

SCHC Spring Meeting 2018

Membership Committee Meeting

4/24/18

Attendees:

- Ryan Knoblauch
- Amanda Berry

Discussion Topics:

1. Networking Dinner
 - a. No comments from Saturday/Sunday dinners
 - b. Amanda Participated in the Monday dinner
 - i. Dinner went well, quality and service were poor but overall was a success.
 - ii. Taxi/shuttle - Confusion on the way back. More cars showed up than originally took them to the restaurant (not a bad problem). Caused headaches in accounting for all the people as some didn't ride with the original people they came with, BUT everyone made it home. Need to have a better check-in method.
 - c. Going forward, can the app be used to help with check-ins?
 - i. People sign-up and check-in when they are in the lobby?
 - ii. If that functionality is not available, we should at least consider posting meeting time and place with the restaurant info.
2. NMSI
 - a. Amanda had a sticker but was never approached by anyone.
 - b. Can new members get some sort of packet, or email of additional information that indicates who they should look for to ask questions?
3. Lunches
 - a. Never heard an announcement for where the lunch info was located. Never anyone organizing it. Didn't see it on the app
4. Other suggestions/feedback
 - a. We should revisit the lunch coordination. In the past these were a good opportunity to network with small groups and that element seemed to be missing from this meeting.
 - b. Can we speak with someone who owns the SCHC app? We should understand what functionality is available to us and look at leveraging some of this. Could be a good opportunity for dinner/lunch coordination.

Feedback not associated with our committee:

- Heard good things about the food (mainly mid-day snacks)

- Classes had a good temperature
- Classroom structure – some people commented it was hard to see. Several long narrow classrooms so people in the back found it difficult.
- Main meeting room was typically a little cold
