Labeling for Consumer Products

Monday, October 2, 2023
Arlington, Virginia

Course Description and Objectives

The goal of this course is to provide an understanding of U.S. Consumer Product Safety Commission (CPSC) labeling requirements. Emphasis will be placed on relevant Federal Hazardous Substances Act (FHSA) regulations that pertain to the risk-based labeling of consumer labels. The course will also provide time for working through selected examples of FHSA-compliant labeling and for participant discussion of consumer labeling issues. This course has been updated to address the co-existence FHSA-compliant labels with the new OSHA HazCom 2012 labels.

This is considered to be an advanced course. While there are no formal prerequisites for this course, it is recommended that participants have a working knowledge of MSDS and labels and that they have either taken the SCHC courses *Toxicology for Hazard Communication* and *Hazard Determination and Risk Assessments* or that they are comfortable with the basic principles of toxicology, hazard determination, and risk assessment.

Intended Audience

Hazard communication professionals looking to improve their consumer product labeling skills.

Course Fee: \$275 members // \$405 non-members

Course Director / Instructor

Robert Skoglund, Ph.D., DABT, CIH, CPPS

Dr. Skoglund is the Director of Product Safety and Regulatory Affairs at Covestro LLC. His responsibilities include safety, compliance, sustainability, and stewardship for North America - including hazard communication and product stewardship.

Course Instructor

M. Andrew Maier, Ph.D., DABT, CIH, Fellow AIHA

Dr. Maier is the Director of the Occupational Alliance for Risk Science (OARS), a nonprofit worker health initiative. He also serves as a Science Fellow at NIOSH, Principal Science Advisor with Stantec, and Hazardous Materials Course Instructor for the University of Cincinnati.
